GRAPHIC BANNER

popup stands

ASSEMBLY INSTRUCTIONS

1. Turn base over and remove pole.
2. Twist out both feet until facing forward.
3. Open out scissor section pole and insert into base.
4. Lift the top rail and pull to raise the graphic from the base.
5. lean the banner stand backwards and continue to extend the graphic.
6. Secure the extended graphic by locating the hook on the top rail and fitting onto the pole

NOTE: Always handle graphic with care. Slowly feed graphic into cassette when retracting.

ASSEMBLY INSTRUCTIONS

1.

2.

3.

4.

Components:

Qty 01 concertina framework
Qty 10 magnetic bars
Qty 01 digital graphic 2000(w) x 930mm(h)
Qty 01 equipment bag
Qty 04 shelves
Qty 01 table top

Step 1

Expand frame with the yellow pips at the top and ensure the yellow magnetic fixing arms are securely pushed together. Position framework with the yellow pips front facing (outer curve).

Step 2

Click the magnetic bars vertically onto the square frame nodes. Ensure the bars are positioned on the front and outer rear sections of the frame. Add the 4 shelves to the bottom and middle frame section.

Step 3

Attach graphic to the framework, starting from the back and wrapping around the front curve towards the opposite rear section. Ensure that the magnetic tape on the graphic lines up with the magnetic fixing bars on the frame and that the top of the graphic is in line with the top of the unit.

Step 4

Place the tabletop onto the frame ensuring that the locators line up with corresponding holes on the top of the nodes.
